

K-LOVE serves my entire family here in the home and as we run errands in the car. My children would be lost without it. I have a two year old that can sing the songs they play. This FM radio station is clean, wholesome and truly safe for the whole family. This is the only radio station that I know of that is really serious about their listeners, whether they are Christians or not. They are dedicated to encouraging and strengthening anyone that would be listening. My family LOVES K-LOVE and would be VERY upset if it went away!
